

Veedol

Lubricants

ALIGRA 30

LITHIUM BASED GREASE

DESCRIPTION

Veedol Aligra 30 is multipurpose lithium based grease containing high quality graphite as friction modifier.

PERFORMANCE SPECIFICATIONS

Meets & exceeds the performance requirements of

- IS 7623 : 1993 (Reaffirmed 2011)

APPLICATIONS

Recommended for applications requiring graphite as a filler.

FEATURES/BENEFITS

- High water and oxidation resistance properties.
- Possesses excellent anti-corrosion and anti-rust characteristics.
- Can withstand high operating temperatures.
- Excellent structural stability.

CHARACTERISTICS

Test Parameter	Test Method	Typical Value
Texture	–	Smooth
NLGI Consistency	–	3
Soap Type	–	Lithium
Worked Penetration, 60st @25°C	ASTM D 217	240
Drop Point, °C	ASTM D 2265	190
