

DOT 4**SYNTHETIC HEAVY DUTY BRAKE AND CLUTCH FLUID****DESCRIPTION**

Veedol DOT-4 brake fluid is completely synthetic fluid consisting of Glycol Ether and Glycols with anti-oxidants inhibitors and other high performance additives, which gives protection against corrosion and vapor lock.

PERFORMANCE SPECIFICATIONS

Meets & exceeds the performance requirements of

- FMVSS 116 DOT-4

APPLICATIONS

Veedol DOT-4 brake fluid is designed for better performance especially with operation at higher temperatures. It has a higher vapor lock point than conventional DOT-3 brake fluid.

It is fully compatible with other fluids meeting FMVSS 116 DOT-3, DOT-4 and DOT-5.1, however it is advised not to mix different grades for superior performance.

FEATURES/BENEFITS

- High boiling point helps reduce vapour locking tendency.
- Excellent corrosion protection provides extended life and reliability of brake system components.

CHARACTERISTICS

Test Parameter	Typical Value
Appearance	Clear & Bright
Color	Red
ERBP, °C	250
Wet ERBP, °C	161
Kinematic Viscosity @ -40°C, cSt	1470
Kinematic Viscosity @ 100°C, cSt	2.04
