

Long Life CC Grease

Advanced Calcium Complex Grease

TECHNICAL DATA SHEET

Description:

Veedol Long Life CC grease is a high temperature, water resistant grease. Veedol Long Life CC grease offers excellent structural stability even under extended period of operation.

Features/Benefits:

- Excellent thermal and structural stability
- Provides high oxidation resistance
- Offers complete protection to anti-friction bearing.
- Excellent water resistance.

Application:

Recommended for all types of anti-friction bearing used in automobiles including heavy duty commercial vehicles.

Typical Properties:

Test Parameters	Test Method	Typical Values
NLGI consistency	--	3
Appearance	--	Green
Texture	--	Smooth & Homogeneous
Worked Penetration, 60st @25°C	ASTM D 217	238
Drop Point, °C	ASTM D 2265	201

Properties mentioned above are typical only and minor variations which do not affect the product performances, are to be expected in normal manufacturing.
