

Alicom 20

Lithium Complex Grease

TECHNICAL DATA SHEET

Description:

Veedol Alicom 20 is lithium complex grease formulated with highly refined base stocks and latest technology additives.

Veedol Alicom 20 grease is suitable for applications where high drop point grease is desired.

Features/Benefits:

- Possesses excellent water tolerance, mechanical stability and high temperature performance.
- High drop point makes it suitable for applications where conventional lithium soap based greases are not suitable.
- Excellent anti-oxidant, anti-rust and anti-wear properties.
- Long operational life at high temperatures.

Application:

- Veedol Alicom 20 grease is recommended for variety of applications especially where trouble free performance and long life are main consideration.
- It is suitable for application of centralized grease system.

Typical Properties:

Test Parameters	Test Method	Typical Values
Texture	--	Smooth
Color	--	Off-white
NLGI Consistency	--	2
Soap type	--	Lithium Complex
Worked Penetration, 60st @25 ^o C	ASTM D 217	282
Drop Point, ^o C	ASTM D 2265	260

Properties mentioned above are typical only and minor variations which do not affect the product performances, are to be expected in normal manufacturing.
