

Angrove Special *Neat Cutting Oil*

TECHNICAL DATA SHEET

Product Description:

Veedol Angrove special is highly additivated neat cutting oil. It contains sulphurized fatty material, which improves oiliness property thus providing better surface finish.

Features/Benefits:

- High lubricity and heat dissipation characteristics.
- Excellent Extreme pressure properties.
- Excellent protection to tool edges over a wide range of operating temperatures.
- Improved surface finish due to the added oiliness property.

Application:

Recommended specially for broaching operations.

Typical Properties:

Test Parameter	ASTM Test Method	Typical Values
Kinematic Viscosity, @ 40°C, cSt	ASTM D 445	21.7
Viscosity Index	ASTM D 2270	43
Flash Point (COC), °C	ASTM D 92	148
Pour Point, °C	ASTM D 97	-27

Properties mentioned above are typical only and minor variations which do not affect the product performances, are to be expected in normal manufacturing.
