

GUNK Veedol Microfiber Cloth

TECHNICAL DATA SHEET

Product Description:

Gunk Veedol Microfiber Cloth is lint-free all-purpose surface cleaning cloth. It is made from polyester and polyamide material and can be laundered several times.

It is soft, non-scratching cloth that quickly and completely absorbs water & oil from any surface

Gunk Veedol Microfiber Cloth effectively entraps dust, dirt, liquid from glass & paint surfaces and does not leave residue or lint.

Benefits

- **Super Absorbent, Lint Scratch Free:** Multipurpose cloths ultra-absorbent property can absorb fluids quickly and efficiently. Made of high-quality microfiber material, the fibre is strong durable but soft and won't scratch or leave lint.
- **Premium Quality:** The fibre used is an excellent absorber & cleans better than cotton.
- **Consistent high quality:** No shrinkage, no shape loss even after multiple washes.
- **Convenient to store:** Easy to carry anywhere/anytime

Application:

- GUNK Veedol Microfiber Cloth is perfect for multipurpose cleaning - All Bikes , Car roof, Car body, Windshields, Headlights, Instrument panel, Seat, Sofa, Dashboard and other surfaces.
- Apart from vehicles, also useful for cleaning television, laptop, microwave, refrigerators, etc.

Direction for use:

- Use a damp or wet cloth for cleaning. You can use microfiber cloths with just water, or with a little bit of soapy water or cleaning products.
- Fold the cloth into fourths so you have multiple cleaning sides.
- Rinse the cloth with warm to hot water for 10-15 seconds after each use.
- Rinse and repeat if necessary
- For best results, use wet followed by dry cloth

Typical Properties

Test Parameter	Specification
Colour	Blue
Grams per Square Meter (GSM)	400 (Minimum)
Size, cms	40 x 60

The above typical properties are those obtained with normal production tolerance and do not constitute a specification. Variations that do not affect product performance are to be expected during normal manufacturing processes. The information contained herein is subject to change without notice.

Care Instruction:

- Frequent washing is recommended
- Machine wash or hand wash with warm water, use mild LIQUID detergents with no fabric softeners, no dyes and no perfumes in them as that can clog the pores in the microfiber fabric, degrading its dirt trapping property and water absorption.
- Only wash with other non-linting materials (No cotton) to maintain original water absorption and dirt trapping properties and keep it lint-free, since the microfiber fabric has a nature to attract and trap any free particles like lint.
- Hang to dry in the shade, DO NOT dry in direct sunlight as the excess heat can drastically reduce its softness and water absorption capability.
