

## **PS Fluid**

*Power Steering oil*

### **TECHNICAL DATA SHEET**

#### **Product Description:**

Veedol PS Fluid is a high performance power steering oil developed from latest technology base oils and selected performance additives for complete protection ensuring trouble-free power steering application.

Veedol PS Fluid due to its high viscosity index and low pour point assures quiet and smooth operation under all climatic conditions.

#### **Performance Specifications:**

Meets & exceeds the performance requirements of

- General Motors Type 'A' Suffix 'A'

#### **Features/Benefits:**

- Excellent thermal and oxidation stability
- Ensure smooth operation with minimum power loss
- Excellent anti-wear & anti-corrosion properties

#### **Application:**

- Recommended for use in power steering applications
- Also recommended for use in synchromesh gear boxes requiring TASA fluids.

#### **Typical Properties:**

| <b>Test Parameter</b>             | <b>ASTM Test Method</b> | <b>Typical Values</b> |
|-----------------------------------|-------------------------|-----------------------|
| Kinematic Viscosity, @ 100°C, cSt | ASTM D 445              | 7.5                   |
| Viscosity Index                   | ASTM D 2270             | 184                   |
| Flash Point (COC), °C             | ASTM D 92               | 222                   |
| Pour Point, °C                    | ASTM D 97               | -42                   |

Properties mentioned above are typical only and minor variations which do not affect the product performances, are to be expected in normal manufacturing.
