

Trac One OIB

Universal transmission & Hydraulic Oil

TECHNICAL DATA SHEET

Product Description:

Veedol Trac One OIB is a universal oil for transmission and hydraulic system of tractors equipped with wet disc brakes.

Performance Specifications:

Meets & Exceeds the performance requirements of

- API GL-4
- Sperry Vickers/ Eaton I-280-S
- John Deere J20C
- Allison C-4

Features/Benefits:

- Ensures noise free operation of the brakes.
- One oil performing various functions
 - Lubricates gears, pumps & bearings.
 - Heat transfer medium for wet brakes
 - Hydraulic fluid
- Excellent brake material compatibility.
- Provides better brake pad cooling and water tolerance
- Higher oxidation stability and thermal resistance
- Better seal compatibility
- Outstanding anti foam properties.
- Ensures longer transmission life

Application:

Recommended for tractors with oil immersed brakes.

Typical Properties:

Test Parameter	ASTM Test Method	Typical Values
Kinematic Viscosity, @ 100°C, cSt	ASTM D 445	10.6
Viscosity Index	ASTM D 2270	160
Flash Point (COC), °C	ASTM D 92	222
Pour Point, °C	ASTM D 97	-15

Properties mentioned above are typical only and minor variations which do not affect the product performances, are to be expected in normal manufacturing.
