

PS FLUID

Power Steering Oil

Product Description

Veedol PS Fluid is a high-performance power steering oil developed from latest technology base oil and selected performance additives for complete protection ensuring trouble free power steering application.

Veedol PS Fluid due to its high viscosity index it assures quiet and smooth operation under all climatic conditions.

Performance Specifications:

Veedol PS Fluid meets & exceeds the performance requirements of

General Motors Type 'A' Suffix 'A'

Application:

- Recommended for use in power steering application.
- Also, recommended for use in synchromesh gear box requiring TASA fluid.

Features/Benefits:

- Excellent oxidation and thermal stability.
- Ensures smooth operation with minimum power loss.
- Excellent anti-wear and anti-corrosion protection.

Typical Properties:

Test Parameters	Unit	ASTM Test Method	Typical results
Kinematic Viscosity @ 100°C	cSt	D 445	7.500
Viscosity Index		D 2270	147
Flash Point	°C	D 92	218
Pour Point	°C	D 927	-42

The above typical properties are those obtained with normal production tolerance and do not constitute a specification. Variations that do not affect product performance are to be expected during normal manufacture and at different blending locations. The information contained herein is subject to change without notice.

STORAGE

All packages should be stored under cover. It should not be exposed to direct sunlight, intense cold and extreme temperature fluctuations. Where outside storage is unavoidable, drums should be laid horizontally or properly covered to avoid the possible ingress of water and damage to drum markings.

HEALTH, SAFETY AND ENVIRONMENT

The information on this product is available in the Material Safety Data Sheet (MSDS) as a guide to the precautions and safe handling of this product and its disposal. For further information, we recommend you review the MSDS. If handled correctly, there are no special precautions suggested.
