

**RAPID KOOL****WATER BASED RADIATOR COOLANT****DESCRIPTION**

Veedol Rapid Kool is a water based high performance radiator coolant.

**APPLICATIONS**

Recommended for use in radiators of trucks, tractors, earth movers, LCVs and cars.

**FEATURES/BENEFITS**

Veedol Rapid Kool is a high performance radiator coolant with 3 in 1 fighter for,

1. Rapid heat removal facilitating excellent heat transfer, ensuring optimum engine cooling and longer engine life.
2. Anti-rust shield selectively acting and protecting radiator interior surfaces against rust and corrosion.
3. Water pump bearing lubrication for longer life.

**DIRECTIONS FOR USE:**

- For severe heavy duty application dilute 1 part of Veedol Rapid Kool with 4 parts of drinking water.
- For normal application dilute 1 part of Veedol Rapid Kool with 7 parts of drinking water.
- Change radiator coolant every 6 months for optimum performance.

**CHARACTERISTICS**

Test Parameter	Typical Value
<b>Tests In Concentrate</b>	
Colour	Light Green
Density @ 29.5°C	1.05
<b>Tests @ 20 % In Water</b>	
Appearance	Clear
Colour	Fluorescent Green
Refractometer Reading	2.2
pH Value	8.2
Freezing Point	0°C
Foaming Tendency	Passes Test
Copper Corrosion	Passes Test
Aluminium Corrosion	Passes Test
Cast Iron Corrosion	Passes Test
