

SILK SHIELD SUPREME GREASE**LITHIUM COMPLEX GREASE****DESCRIPTION**

Veedol Silk Shield Supreme grease is a superior lithium complex grease of NLGI 3 consistency with ISO VG 220 base oil viscosity.

APPLICATIONS

Recommended for longer grease life in all heavy duty wheel bearing applications.

FEATURES/BENEFITS

- Meets every essential lubrication requirement for wheel bearing.
- Keeps the bearing shielded with a protective film.
- Maintains excellent structural and mechanical stability for longer periods.
- Fortified with selective additives for oxidation and rust protection.
- Offers high thermal stability and water resistance.
- Longer grease life.

CHARACTERISTICS

Test Parameter	Test Method	Typical Value
Appearance	–	Reddish
Texture	–	Medium Fibrous
Soap Type	–	Lithium Complex
Worked Penetration, 60st @25°C	ASTM D 217	220 - 250
Drop Point, °C	ASTM D 2265	240 min
EP four ball weld load, kgs	ASTM D 2596	250 min
Copper strip corrosion	ASTM D 4048	- ve
Base oil viscosity at 40°C, cSt	ASTM D 7042	198 - 242
