

**VC GREASE****CALCIUM BASED GREASE****DESCRIPTION**

Veedol VC Grease is a calcium based, water resistant grease with a tackifier.

PERFORMANCE SPECIFICATIONS

Meets & exceeds the performance requirements of

- IS 506 : 1993 (Reaffirmed 2006)

APPLICATIONS

Recommended for chassis lubrication of automobiles including commercial vehicles, tractors and other heavy duty equipments.

FEATURES/BENEFITS

- Good performance against water washouts.
- Excellent performance in chassis applications due to better adhesion.
- Good pumpability nature provides adequate dispensing of grease at all times.

CHARACTERISTICS

Test Parameter	Test Method	Typical Value
Texture	–	Smooth
Soap Type	–	Calcium
Worked Penetration, 60st @25°C	ASTM D 217	300
Drop Point, °C	ASTM D 2265	96
